It's this time of the year when we invite you to participate in our 99th MEEA-WEAI sessions.

This year the conference will be held in Seattle, Washington and the date is from June 29th, 2024 to July 3rd, 2024. Please see the website for the conference:

<https://weai.org/conferences/view/14/99th-Annual-Conference>

There will also be online sessions on June 27th for the participants who cannot attend the conference in person. The topics are not restricted to the MENA region.

The link to the registration form is given by:

Please send your full affiliation and abstract information to us and not to the conference's secretariat as we vest our own organized sessions in the conference. Please make sure to pay both the membership and registration fees of the WEAI and keep your MEEA membership up to date.

If later on you find that you cannot participate in the conference, please let us know as soon as you know so we can make the necessary re-arrangements by revisiting our organized sessions.

We are happy to have Nathalie Helmi to join us as an organizer, which replaces Rahel Shomaker who could not join us because of her increased academic responsibilities.

You can take a day off to go to mount Rainer near Seattle and see the snow on top of the mountain in June and July. You can also mix with foxes on top of this mountain in a village called Paradise.
